Overview

New Chester market is part of the recent Northgate development.
The design is a modern take on a traditional market with 40 stalls covering 36,000 sq ft.
It provides a vibrant mix of produce, goods, food and beverage traders, with over 400 seats, a stage and screen.
A stunning space to also host events, demonstrations and acoustic music performances.

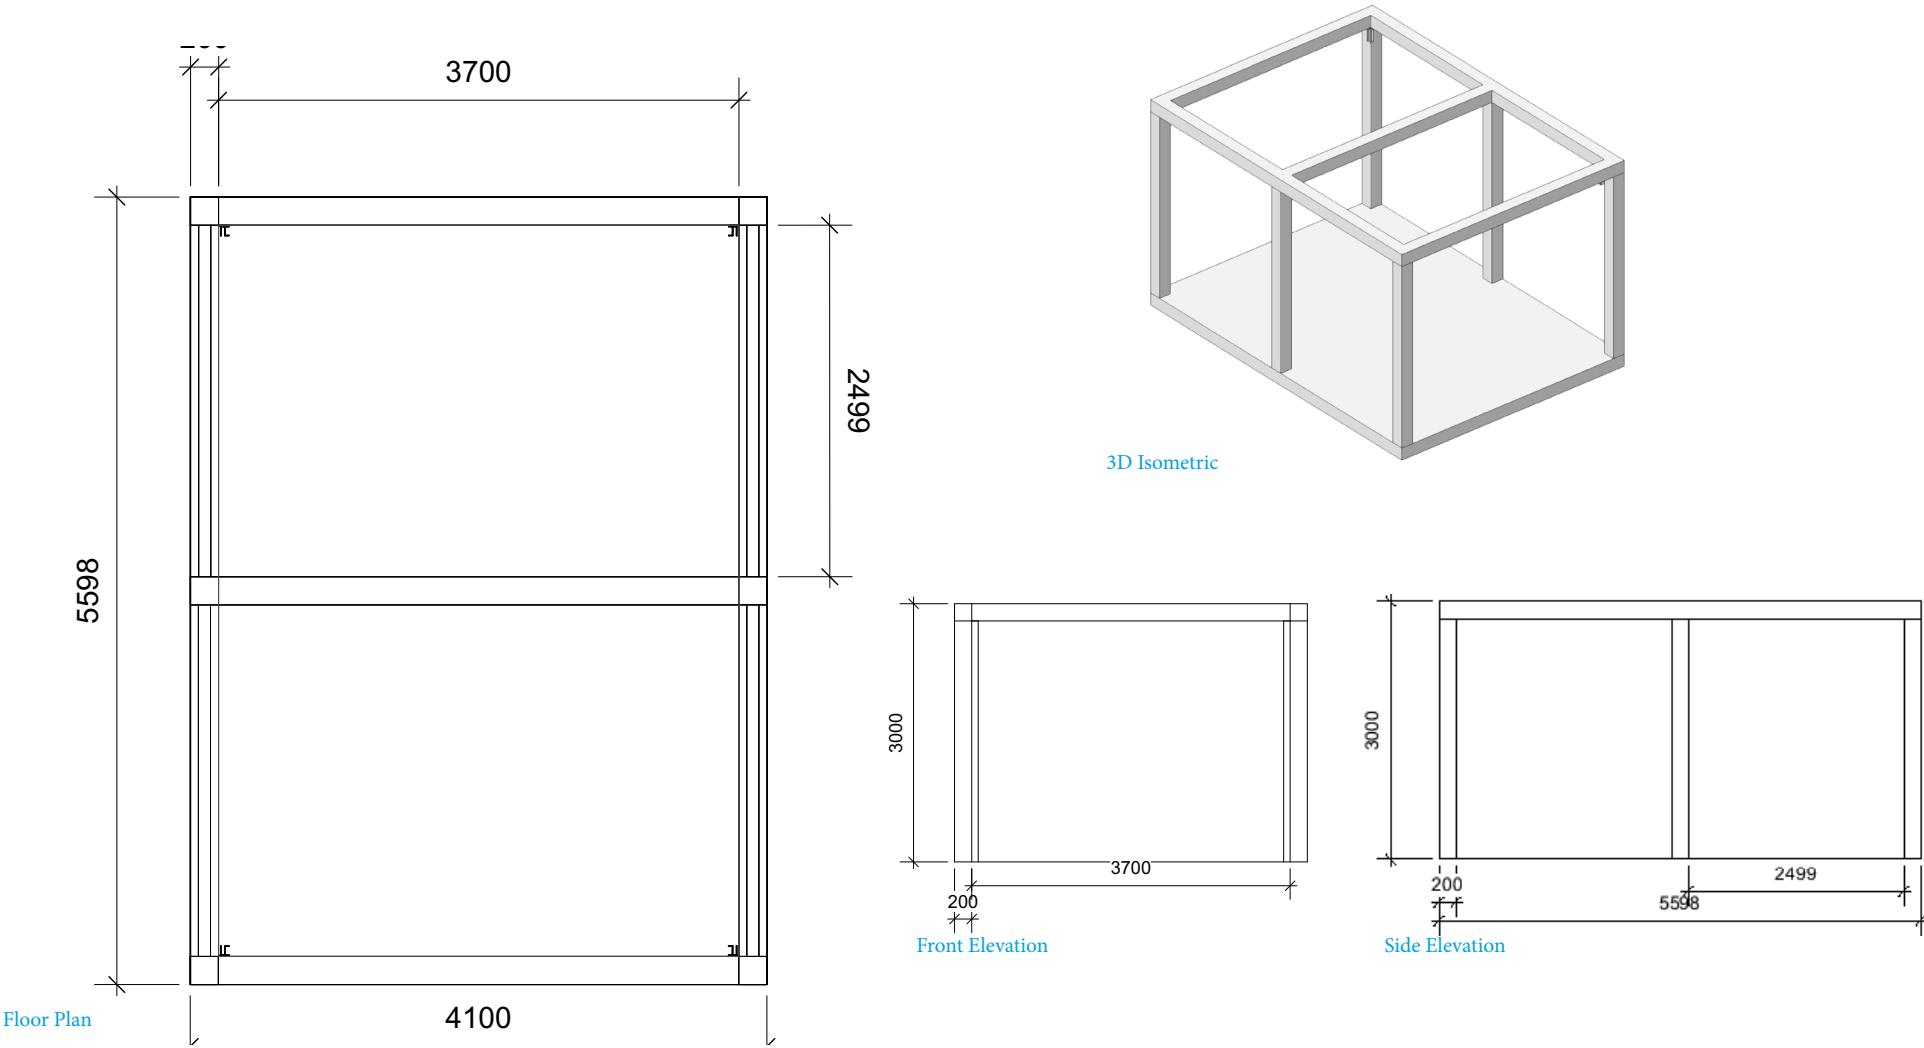

Company Profile

Millstone bakery uses traditional artisan methods at it's bakery in the North West. The bakery is expanding into the new Chester market to sell organic, authentic, nourishing, and nutritious high quality bread. Keen to offer more, the store will hold regular talks and sampling sessions, for small groups, discussing these speciality breads. The objective is to engage customers and to tell a story. A story from the wheat feilds to the mill, the baking process to the store.

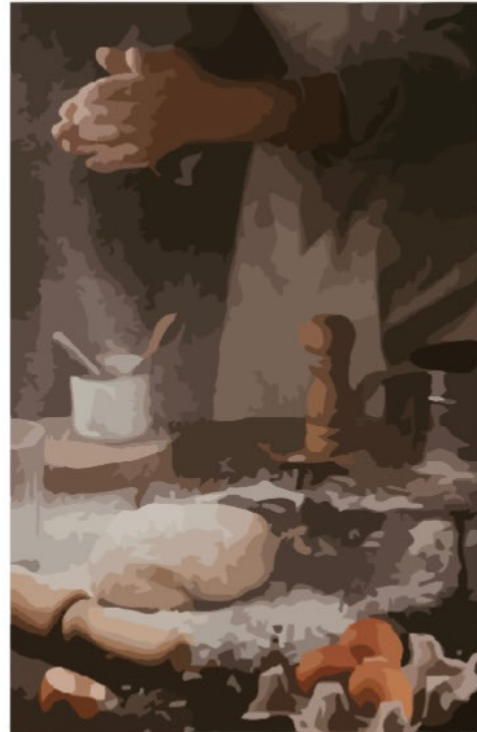

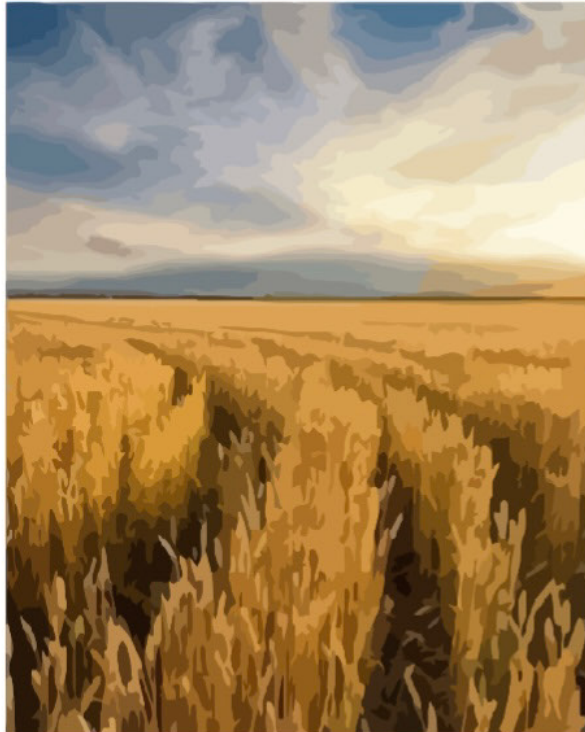

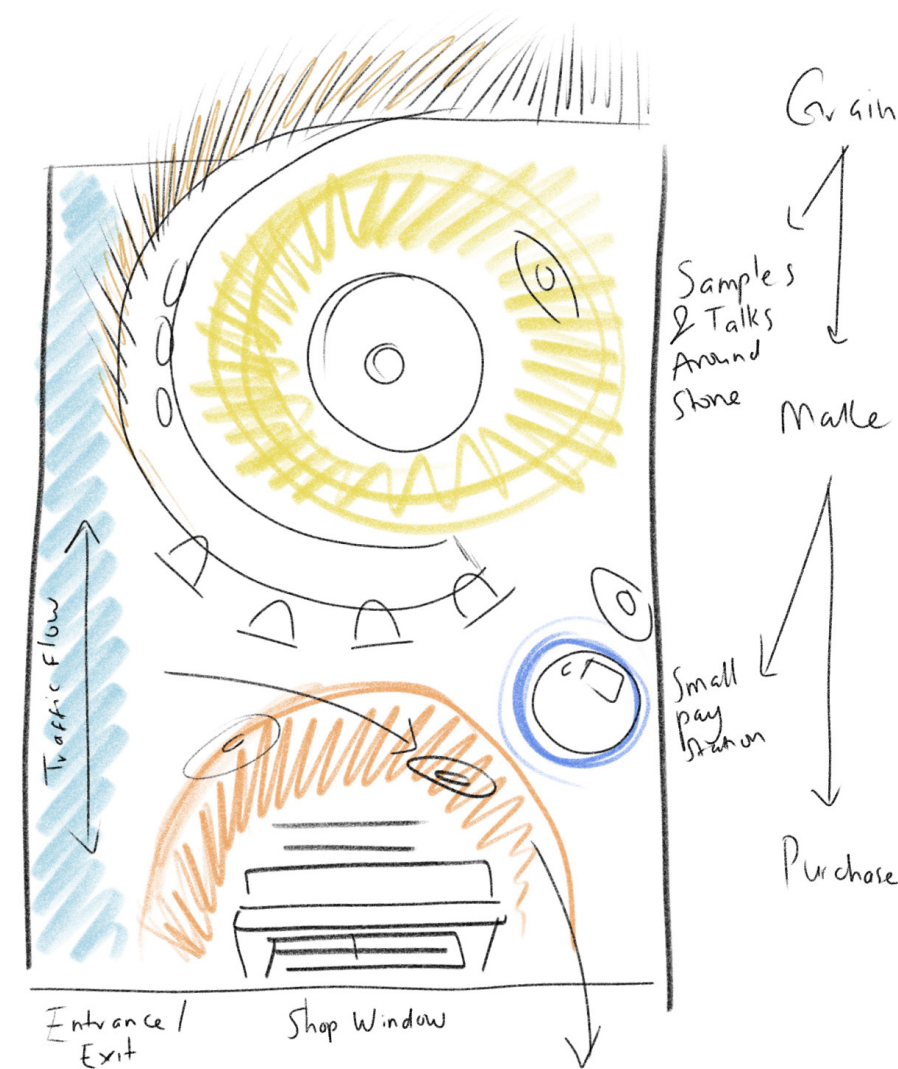

Existing 2D & 3D Drawings

The store is located in one of the timber framed units within the Chester market.

Exploratory Image

An idea of the store's layout, visual identity and the story it has to tell.

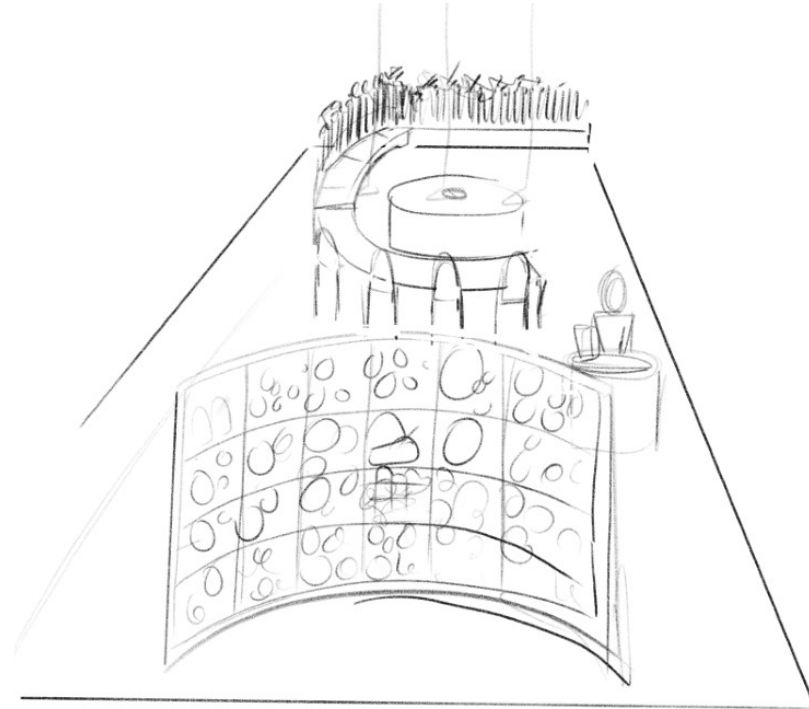

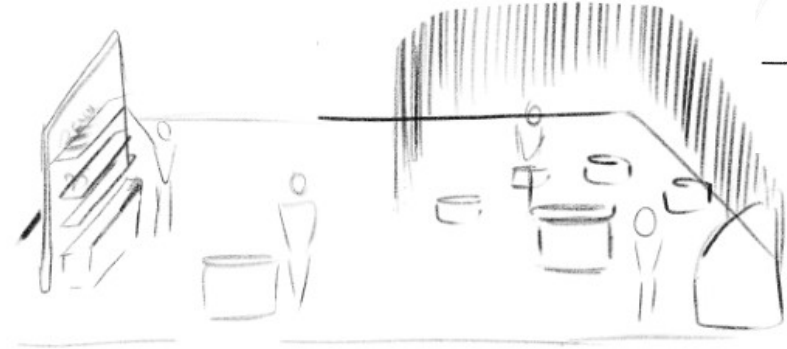

Exploration image

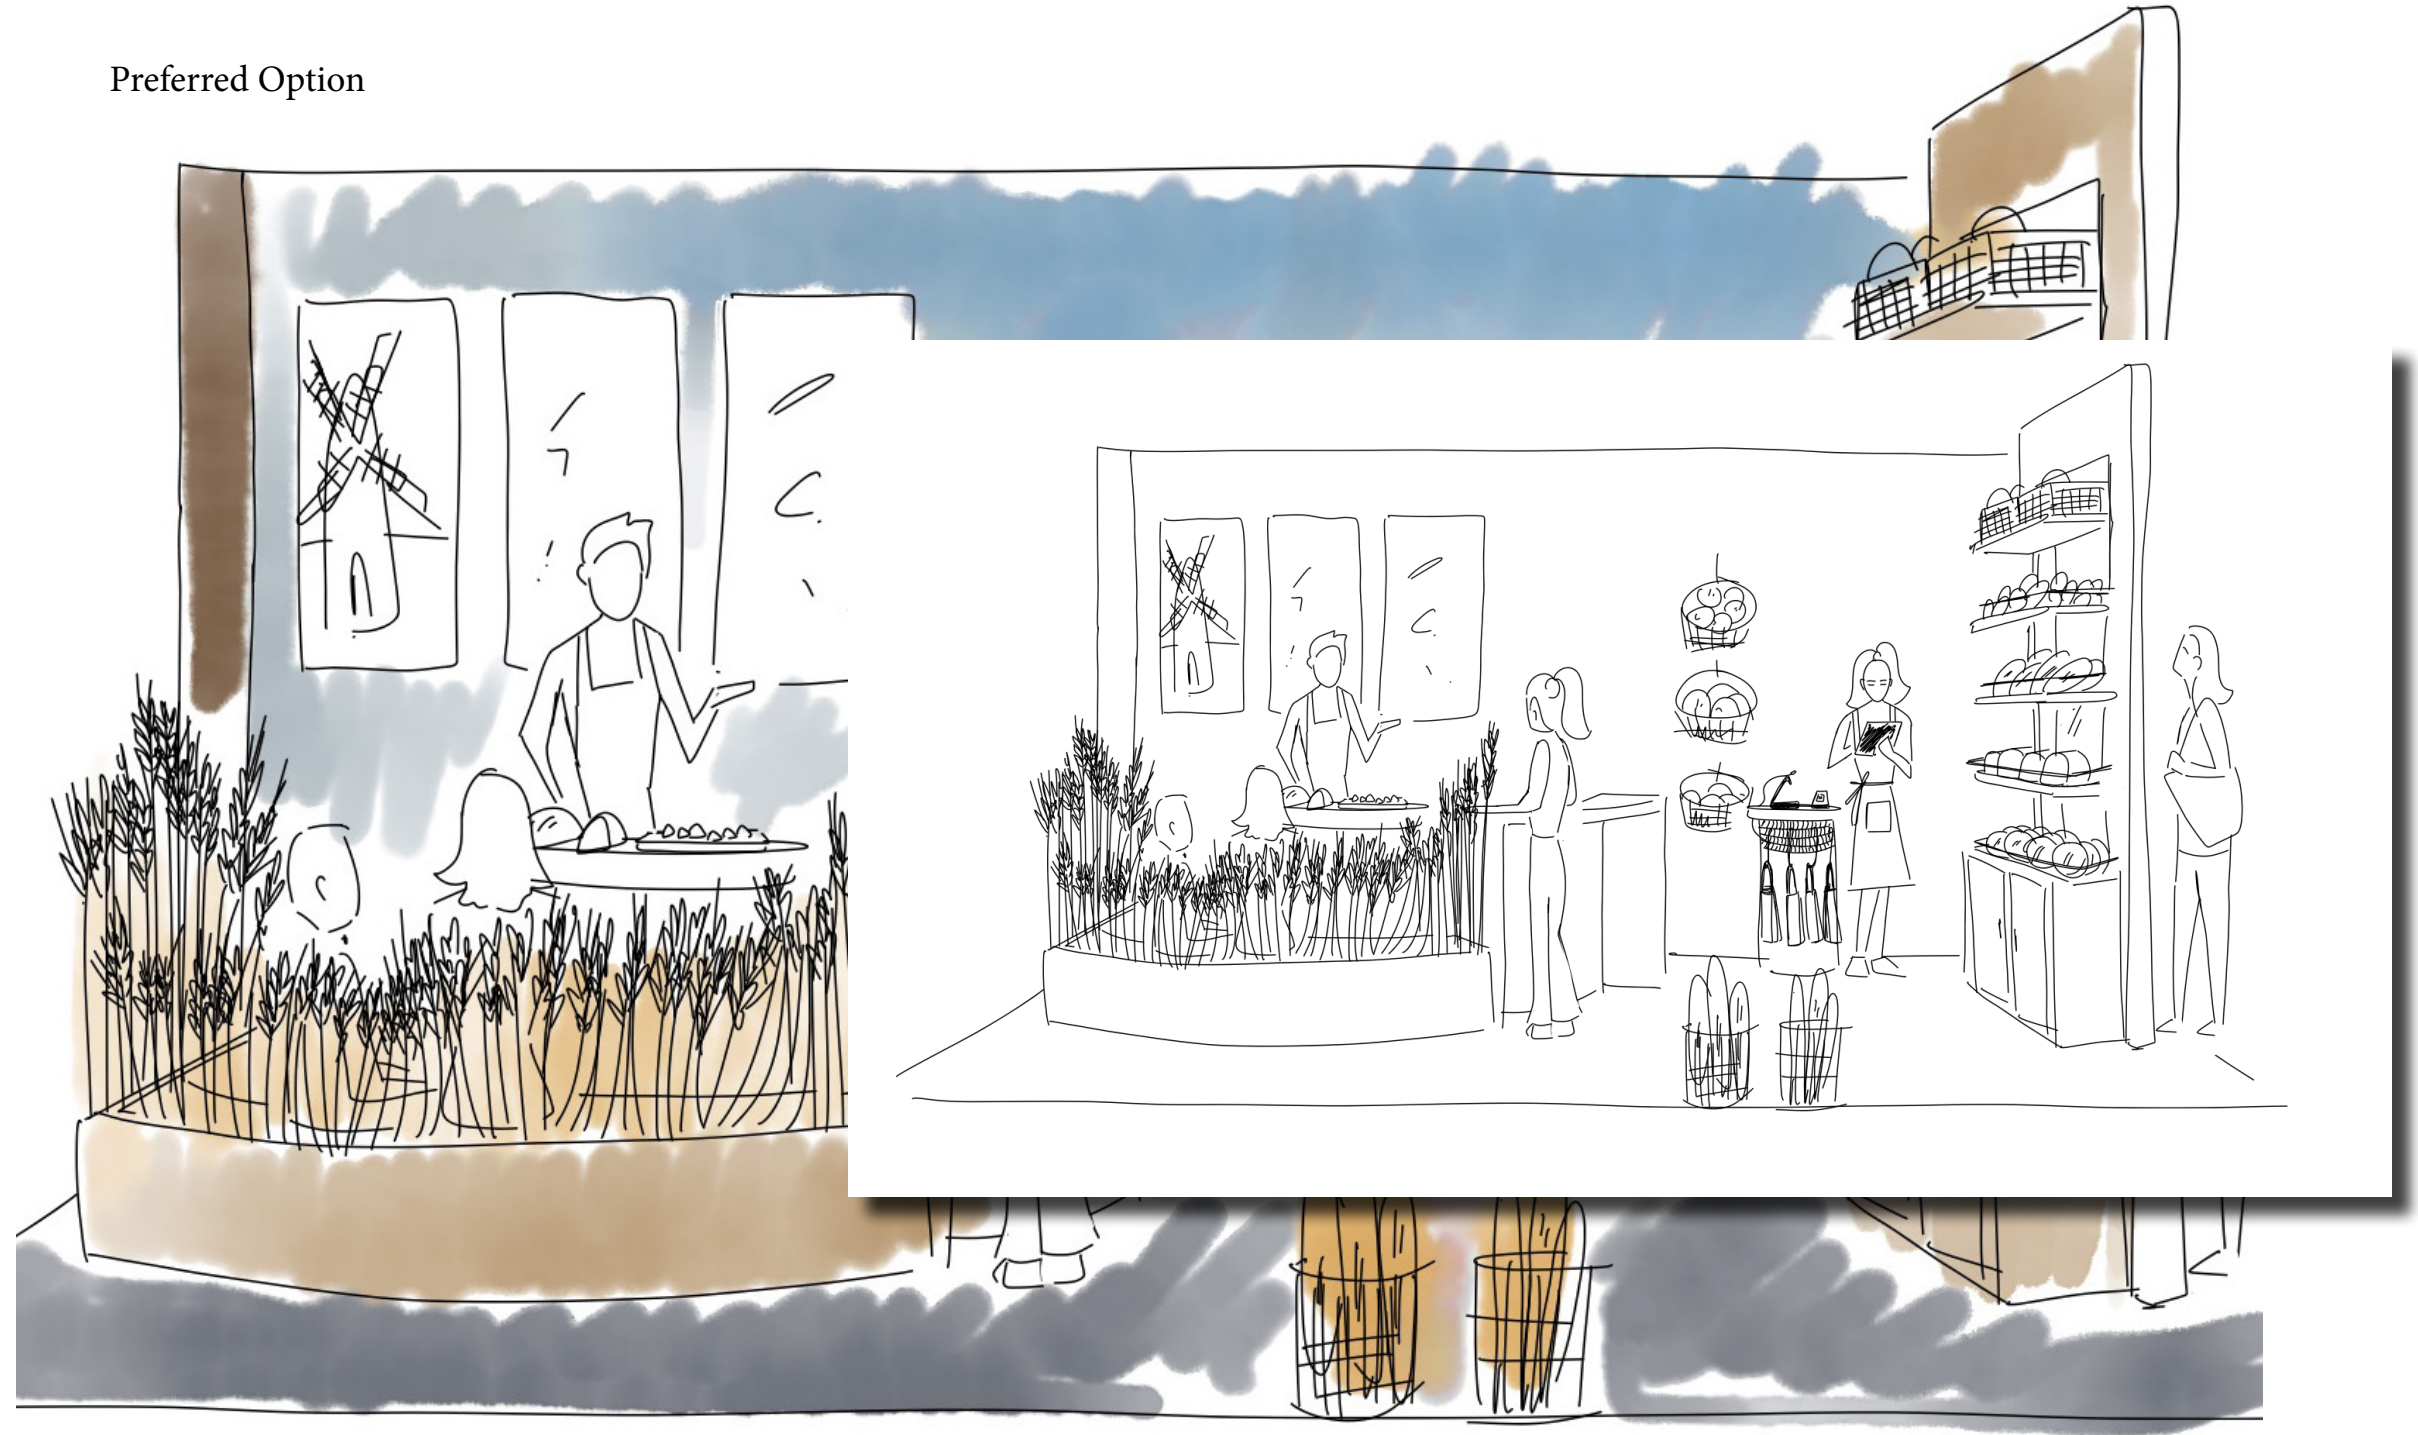

Key Requirements

- Shelving for bread (storage and display)
- Area for tasting sessions - seating considered
- Cashier station with payment screen
- Wheel chair friendly
- Some hidden storage
- Sustainable materials
- Fixtures not to be attached to current structure
- Old mill feel, story and brand to be distinguishable

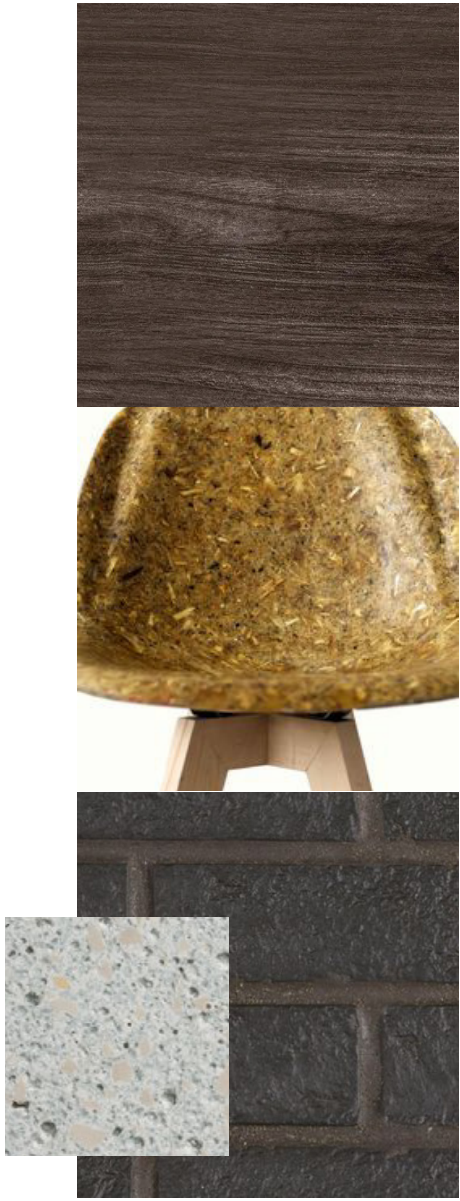

Spatial Exploration

Preferred Option

Material & Colour Research

Material & Colour Research

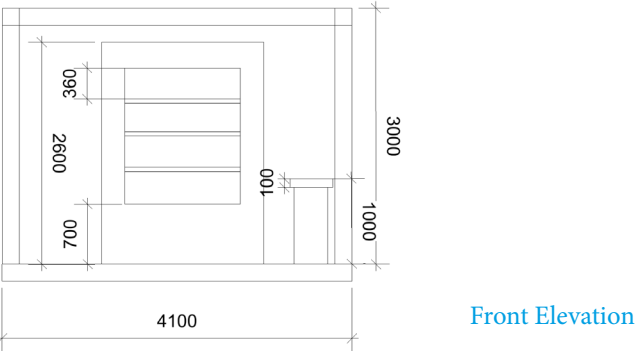

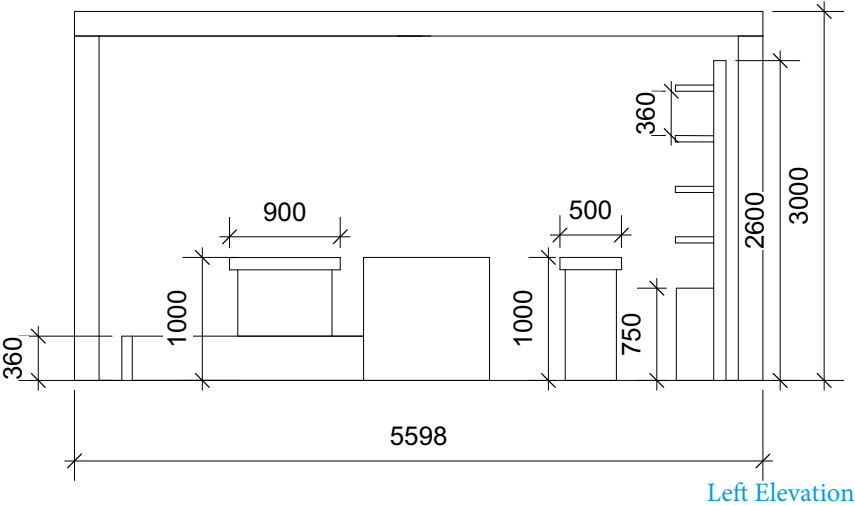

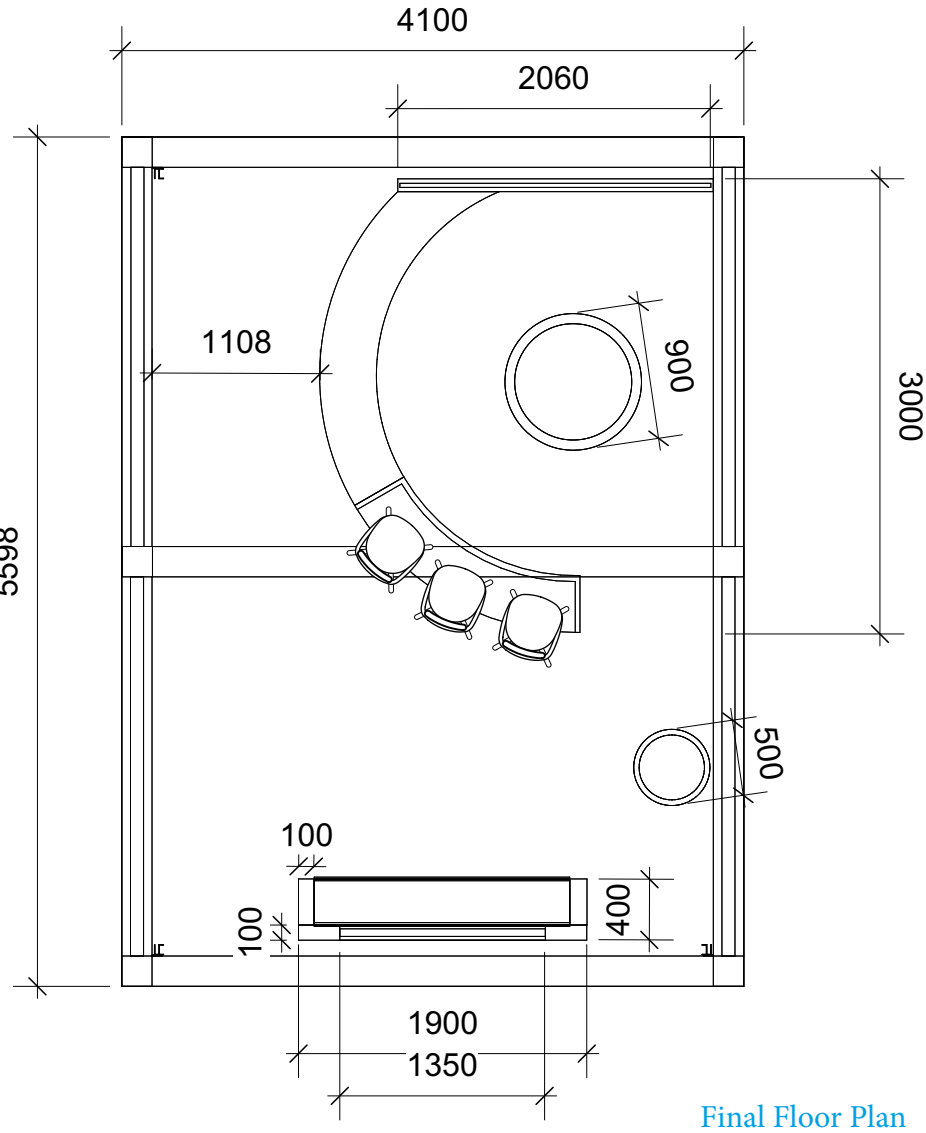

Material Board

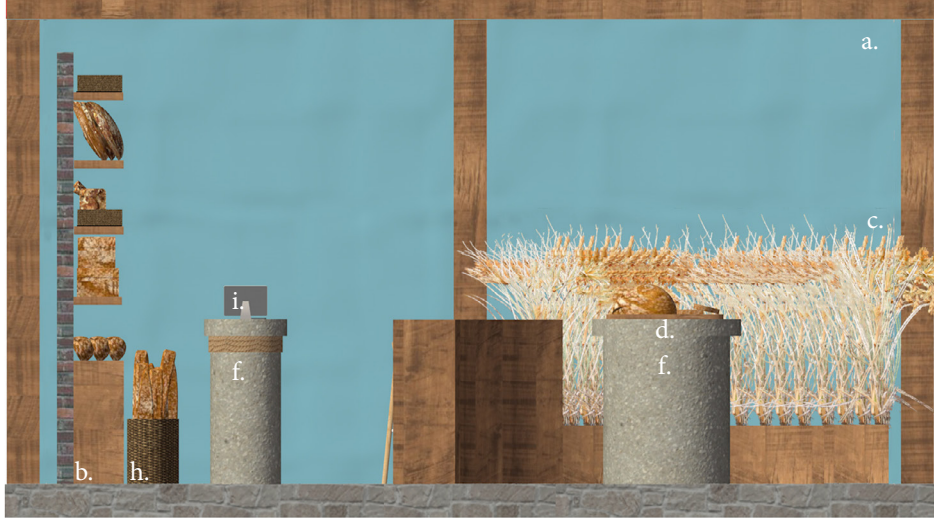

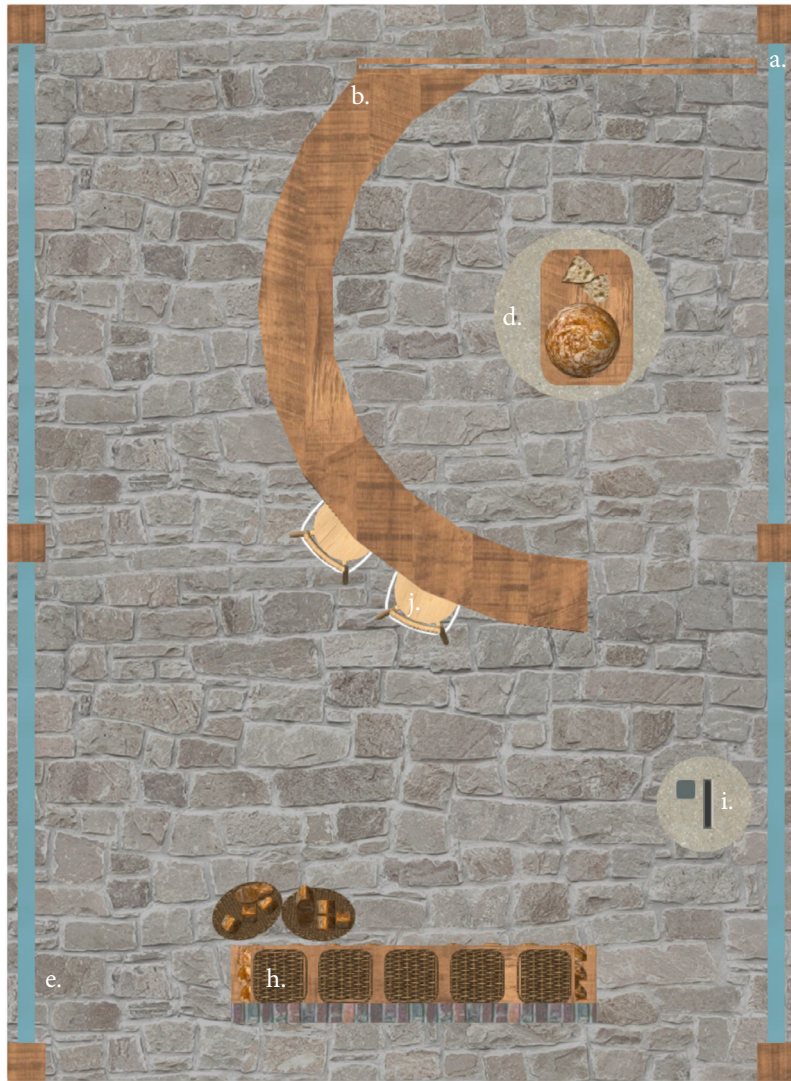

- a. Clayworks BLU - 07 Colour
- b. Amtico Dark Oak Wood
- c. Natural Dried Wheat
- d. Original Millstone
- e. Solus Footprint Trial Tile
- f. Clayworks Demi Rustic Plaster
- g. Alusid Botanical Terrazzo
- h. Solus Charnwood Brick
- i. Camira Sumi Sur11 Fabric

Final Floor Plan & Sections

Final Rendered Floor Plan & Sections

- Key:
